In claim 10, the word "having" has been deleted and the words "prepolymer comprises" has been inserted in its place, in order to correct a 35 U.S.C. 112, second paragraph problem.

The following is an examiner's statement of reasons for allowance: The claims are allowable over GB 1, 408,164 reference because the GB reference discloses making the urea-urethane by reacting 80-96 equivalents of diamine per 100 equivalents of isocyanate groups on the prepolymer versus 0.1-45 equivalents of the claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
